

AMENDMENTS TO THE SPECIFICATION

The paragraph beginning on page 4, line 17, is being amended as follows:

The effective amount of α -CEHC and/or γ -CEHC as antioxidants in blood may be, but not limited to, about 200pmol/ml, for example. α -CEHC and/or γ -CEHC show anti-oxidant action not only in vivo but also when contained in pharmaceuticals, foods, diet etc. and the like. α -CEHC or γ -CEHC may be used alone or in combination.
